Memo No.: Director (Projects)/RDSS/Project-II/ 453

Date: 23/10/2024

To  
All Project Manager,

**Sub: Maintaining safe working procedure for conversion of LT Bare line with AB cable under RDSS.**

Dear Sir,

LT AB cabling works under RDSS has been started in all the districts and around 20% of the awarded job has been completed so far. During execution of the job few instances of poor workmanship has been identified / reported and for which few unfortunate accidents have been occurred.

Hence you are requested to ensure the following, during execution of conversion job at site.

1. All the live parts of the cable accessories and service JB should be tested through insulation Tester/Megger prior to installation of the line.
2. Earthing connection with the exposed metal parts of the accessories should invariably be connected with earth spike before energizing the lines as per standard.
3. Earthing practice of WBSEDCL should invariably be followed during execution of the job for conversion of LT line by AB cable.
4. To ensure compliance of above from the site in-charge of the respective Turnkey Contractors as well as the Field Engineers/Field Supervisors working on behalf of PMA before energizing the line after completion of conversion job.
5. To ensure deployment of supervising officer on behalf of WBSEDCL to check the performance of the Turnkey Contractors & PMA to prevent any untoward incident in future.

The above instruction should be complied in the true sense of the term and any deviation if found shall be viewed seriously.

Yours faithfully,

Sd/-

(Partha Pratim Mukherjee)  
Director (Projects)
